Our foreign advertisers pay at the same rate. Each subscriber 4 min. In order that our subscribers may fully appreciate, up-to-date public spirited people who make it possible for the Mountaineer to exist, we made the above calculation. Our labor alone, costs \$3 per day, or 300 cents for 600 minutes of work. This is one-half cent per minute. In order to pay this item by subscriptions we must have 1200 subscribers. This does not include fuel, rent, or any other of the many expenses that we must meet.

If the Salyersville business and professional people support the Mountaineer, we can easily make a better paper than we now have. If they withdraw their advertisement we will be compelled to cut down our force of men, thereby giving you an inferior paper.

Now if you have any dealings in Salyersville, deal with the public spirited people who advertise or ask the people with whom you deal to advertise. These non-advertiser will have many excuses but they either do not have what the other fellow has who advertises, or they are too stingy to put any money in advertising.

The advertising rates of other Mountain papers are twice as much as ours. So you see that we are not over charging.

If you will help those who help your paper, then our merchants will not say, "It does not pay to advertise."
