BLUE INK.

You ask me, Edward, what I think
Of this new fashionable ink?
I'll answer briefly, Ned.
Methinks it will be always blue;
At all events when used by you,
It never will be *red*.

☞ War and Love are strange compeers—
War sheds blood and Love sheds tears:
War has spears and Love has darts:
War breaks heads and Love breaks hearts.

HASTE MAKES WASTE.

Be wise, discreet—of dangers take good heed,
Be cautious, and you cannot but succeed;
Shun all rash acts—let moderation mark
Each enterprise on which you may embark;
And from your minds ne'er let there be effaced
The old yet sterling proverb—'Haste makes waste.'

☞ "Do you know," said Dr. Bushwacker as he stretched, "how this custom originated; this ringing of wine bells or kissing of beakers sir!"

We replied in the negative.

"Then, sir, I will tell you," replied the Doctor. "It was the invention of a learned French philosopher, to illustrate the five senses. The beautiful color of wine delights the eye—seeing; the delicate bouquet gratifies the nose—smelling; the cool glass suggests a pleasure to the fingers—feeling; and, sir, by drinking it we gratify, exquisitely—the taste. Now, sir, touch glasses for the finest chime in the world, that rings out good-fellowship, sir, and we have the fifth sense—hearing."

"Quite a little poem, Doctor, in five lines."

"Put it in verse, sir, put it in verse; I give you the idea.

[Corzen's Wine Press.

EQUIVOCAL COMPLIMENTS.—Compliments may be offered in all sincerity, and yet have a very equivocal sound, as in the case of the city knight, unable to aspirate the letter H, who, being deputed to address William III., exclaimed: "Future ages, recording your Majesty's exploits, will pronounce you to have been a Nero."

Not less honest and ambiguous was the negro's compliment to the great emancipator—"Gora mighty bless Massa Wilberforce! He hab a white face, but he hab a black heart."

HOW TO "DO IT."—Go it strong in your praise of the absent. Some of it will be sure to get around.

Go it strong when you make love to a pretty widow. More people have erred by too little than too much in this particular.

Go it strong when taking up contributions for a charitable purpose. It will pay.

Go it strong when you make a public speech. Nine people out of ten never take any allusion unless it cuts like a short-handled whip or a rhinoscerous cowhide.

Go it strong when you advertise. Business is like architecture—its best supporters are full columns.

THE VERY LAST DODGE.—During the late agricultural fair at Haverhill a place was wanted for the trial of horses, and a man named Lee offered the committee and spectators free admission to his grounds for that purpose. The crowd rushed in, but, when the sport was over, it cost them a 'quarter each' *to get out.*

☞ A wagoner on being asked what he had in his wagon, replied:

Three-fourths of a cross, and a circle complete,
An upright where two semi-circles meet;
A rectangle triangle standing on feet;
Two semi-circles, and a circle complete.

Three fourths of a cross is a T. A circle complete is an O. An upright where two semi-circles meet is a B. A triangle standing on its feet is A. Two semi-circles are CC, and a circle is O.—TOBACCO is what was in the wagon.

HOT AND COLD.—An Irishman discovered a part of the wood work of a chimney piece on fire, that endangered the whole house. He rushed up stairs to his master, and announced the alarming intelligence. Down he rushed with him. A large kettle of boiling water was on the fire. 'Well, why don't you put out the fire?' 'I can't surr.' 'Why, you fool, pour the water upon it.' 'Sure it's hot water surr.'

☞ The fellow who was requested to 'foot up,' did so by standing on his head. Rather an inconvenient style of footing it.

☞ Procrastination is the source of all evil.

HARD TIMES, HARD TIMES.

The subscribers, believing the system of indiscriminate credit to be one of the great causes of the present "HARD TIMES" and desirous of contributing to the relief of the PRESENT PRESSURE, have determined to restrict their credit business to customers whom they know to be PUNCTUAL, and being convinced that the cash & short profit system is the best for all parties we have determined for the future to offer our friends inducement to pay cash.—To those of our many friends who have treated us well and paid us PUNCTUALLY we tender our heart felt thanks and confidently request a continuance of their patronage. But those of our customers who have not paid as our honest DUES PUNCTUALLY are hereby informed that a continuance of their patronage is to us both UNPROFITABLE, UNSOLICITED and UNDESIRABLE.

We want customers who will settle their accounts at least once every TWELVE MONTHS. None others need apply for credit. One word to another class of troublesome customers, we mean those whom we entitle our ITEM ACCOUNT PATRONS, having no regular running account with us but who are in the habit of asking credit for the small sums of from ten or twenty cents as the case may be, to be paid, to day or to-morrow or in a few days. But to-day, passes, to-morrow has fled, a few days have been numbered with the things that were and still our ITEM PATRONS have not made their appearance, and we begin to conclude that they to (as far as our pockets are concerned) have been numbered with the past. To such we would say, we have closed our books to that kind of traffick and that in future they must come prepared to pay or prepared to meet with a refusal of credit.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

AYER'S
CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cure, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOARSENESS, &c.; and for CHILDREN it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

DR. HUNTER'S MEDICAL MANUAL AND HAND BOOK FOR THE AFFLICTED.—Containing an outline of the origin, progress, treatment and cure of every form of disease contracted by promiscuous sexual intercourse, by self abuse or by sexual excess, with advice for their prevention, written in a familiar style, avoiding all medical technicalities, and every thing that would offend the ear of decency; with an outline of complaints incident to females, from the result of some twenty year's successful practice, exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added receipts for the cure of the above cases, and a treatise on the causes, symptoms and cure of the Fever and Ague.

Testimony of The Professor of Obstetrics in Penn. College, Philadelphia—"DR. HUNTER'S MEDICAL MANUAL."—The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

JOS. S. LONSDALE, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.—It gives me pleasure to add my testimony to the professional ability of the Author of the "MEDICAL MANUAL." Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice in which his skill has been manifest in restoring to perfect health, in some cases where the patient has been considered beyond medical aid. In the treatment of Seminal weaknesses or disarrangement of the functions produced by self-abuse, or Excess of every kind, I do not know his superior in the profession. I have been acquainted with the author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves.

ALFRED WOODWARD, M. D.

"This is, without exception, the most comprehensive and intelligible work published on the class of diseases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and, with too little breath to puff, and too little presumption to impose, he has offered to the world, at the merely nominal price of 25 cents, the fruit of some twenty years' most successful practice."—*Herald.*

"No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their charge."—*People's Advocate.*

A Presbyterian clergyman in Ohio, writing of "Hunter's Medical Manual" says:—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution, without realizing the sin and fearful consequences upon themselves and their posterity. The constitution of thousands who are raising families have been enfeebled, if not broken down, and they do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generation. Intemperance (or the use of intoxicating drinks) though it has slain thousands upon thousands, if not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and, believe me, your co-worker in the good work you are so actively engaged in."
