Transposing Piano.

Piano Playing Made Easy

To play music in any key other than that in which it is written is difficult for most performers.

Norris & Hyde Pianos instantly transpose any song or melody at any key. They are the only pianos which can do this in any climatic weather. With them any player can just as easily play any piece in any and all keys as in the original key, and they can transpose any song to a key in which the voice sounds beautiful. Instruments may play in any key easiest of all.

The said great value in these innovations, which are superior in all other respects. They suit the most exacting critic, and are indicated by professional musicians. Any child can operate the Mondel Key-board, and it cannot be gotten out of order. While presently instruments for home, home teachers, schools, churches, and all classes, find them an indispensable convenience. Our Catalogue No. 50 tells all about them. Send for it.
