BRAND'S PREMIUM

STOCK MILL.

THE attention of Farmers and Stock Feeders generally, is called to this Mill; it is designed for **cutting, crushing, and grinding** Corn and cob, Rootabagas, Turnips, and other provenderthis mill has taken the FIRST PREMIUM at your STATE AGRICULTURAL FAIR, in Bourbon Co. Ky. and has been exhibited in Ohio and Indiana, of which it has come out best in competition with many other mills. The cutting principle is a decided improvement over all other mills, and with the three principles of cutting, crushing and grinding combined, we challenge competition with any other mill in the United States.

No. 2. mill will grind from 8 to 10 bushels per hour, with one horse. No. 3. will grind from 10 to 15 bushels, No. 4. will grind from 15 to 20 bushels per hour, with two horses. This mill is perfectly simple and not liable to get out of order, and warranted to perform in the most positive manner, and in case of failure, can be returned in 40 days and you can get your money. Manufactured by Brand & Earl, No. 209 Walnut street, Cincinnati, and for sale at Craig & Kenadays, Livery Stable, Lexington, Ky. Patent applyed for.

IMPROVED

ARTIFICIAL TEETH.

DR. J. ALLEN, late Professor in the Ohio College of Dental Surgery, invites attention to the improved method of constructing Artificial Dentures which combine the following advantages:

1. There are no seams or crevices for the lodgment of food to vitiate the saliva or infect the breath, as not even the slightest moisture can get between the teeth and plate.

2. An Artificial Gum, which is as firm and indestructible as the teeth, is fused at a high heat to teeth and around their base, which unites them firmly to each other and to the plate upon which they are set. This gum imparts to the teeth that peculiar expression and life-like appearance which characterize the natural organs.

3. Great strength is obtained by thus uniting the teeth, gum and plate, and no ordinary force of masticating, can break them from their base.

4. A clear and distinct articulation of speech is restored. This important change is effected by having the inside of the teeth and gum of a natural form. To this form the tongue is readily adapted. This perfect adaptation of the tongue to the denture prevents the hissing or muffled sounds in speaking or singing so often observed in persons wearing artificial teeth.

5. The natural form and expression of the mouth and face can be restored, in cases where they have become sunken. This is done by means of additional attachments to the frame-work supporting the teeth. These attachments are so formed as to bring out the sunken portions and sustain them in their position. They are covered with the above named gum compound, and become component parts of the denture, and when rightly formed cannot be detected by the closest observer. This method of restoring the cheeks to their original fullness and also the natural form and expression of the mouth and lips, has been well tested having been made a special feature in the author's practice for several years past. A variety of Plain, Gold and Daguerreotype Specimens, which have been taken of persons without this improvement can also with it, can be seen at his office, showing the great change in appearance which is produced in the countenances of individuals now wearing dentures constructed upon this principle, which the public are invited to call and examine, together with other specimens of his improved style of work, not requiring the above attachments.

6. The plates usually employed for this work are platina, the purity of which prevents even the slightest tarnish, or unpleasant taste in the mouth. In short, this system embraces many new and important features, which are readily appreciated by those wearing artificial dentures upon this principle. With reference to the utility of this method, numerous testimonials can be given from eminent Dentists in various parts of the Union, and persons wearing the work in this and other cities.

Dr. Allen has arrangements by which he is enabled to serve persons from a distance, immediately on arrival—thereby saving expense.

J. ALLEN, No. 10 Bond st., N. Y.

P. S. Persons desiring further information in reference to the above, will be furnished with pamphlets, free of postage, by sending a note with address to Dr. J. ALLEN.

NURSERYMEN FRUIT GROWERS AND FARMERS.

NEW YORK HORTICULTURAT REVIEW.

A JOURNAL OF SUBURBAN ART!

SUPERBLY AND PROFUSELY ILLUSTRATED

Devoted to the Advancement of the Rural Interests in America.

This is one of the largest and most elaborate works of the kind in the world.

Rural Architecture forms one of the principal features. Each number contains from two to four engravings of model cottages, from designs by eminent and skilful architects. Space is also assigned to the tasteful art of Landscape Gardening; engraved plans of gardens in every style, and adapted to the peculiarities of different orders of, architecture, beautify the work.

Engravings of new fruits, new flowers, new Vegetables, &c., are illustrated and described as soon as their respective qualities can be determined, forming the most complete and elegant Manual of Rural Husbandry ever attempted.

An experienced corps of practical writers, seven in number, are engaged to fill its columns.

It contains seventy large pages, and is printed on the finest pearl-surfaced paper, manufactured expressly.

TERMS.—$2 per annum, payable invariably in advance. Fifty cents commission on each subscriber allowed to those who act as agents. $1,000 will be distributed at the end of the year among those who send us the twenty largest list of subscribers. These premiums will be paid in cash. The first prem. will be $500.

The following are selected from hundreds of similar notices, voluntarily contributed by contemporaneous publications:—

The HORTICULTURAL REVIEW deserves the most liberal patronage. It is not only eminently practical, but is written in a style that equals the best efforts of the late A. J. Downing.—*Knickerbocker.*

The most elegant and useful book of the kind that has ever come under our observation.—*Epitomist.*

Mr. Ringles, the Editor of the HORTICULTURAL REVIEW, is a practical pomologist, and one of the finest scholars our country boasts of. He possesses the glowing descriptive powers of Dickens, the elegant gossip of Walpole, combined with a thorough knowledge of rural art.—*State Police Tribune.*

Farmers, buy it for your sons—buy it for your daughters. It is a rich intellectual treat; a rare combination of the beautiful and the useful.—*Argus, N. Y.*

We had thought that in Downing's death the eloquent advocate of rural adornment had become only a cherished remembrance; but in Mr. Ringles, we discover an equally rich mine of mental wealth, that betokens the influence of the spirit that is gone.—*Montreal Tribune.*

Advertisers will find this an unsurpassed medium of publicity, as the HORTICULTURAL REVIEW circulates extensively in every State in the Union. Advertisements inserted at the rate of $10 per page.

WOOD ENGRAVING.

Those requiring Wood Engraving, can have their orders executed in an unrivalled manner. *Special attention* is given to views of ANIMALS; an experienced English Draughtsman is engaged for this express purpose. Persons living at a distance can forward a daguerreotype of the object by mail; they will be engraved with as much accuracy as if present. Breeders will be dealt with on very liberal terms.

OUR EXCHANGE LIST is already very large. A further extension is not desired, unless publishers are willing to give the above advertisement several insertions in their respective papers.

AGRICULTURAL BOOKS can be furnished on every useful subjects, from both English and American publishers, by enclosing to our address the price of the book required.

Specimen copies will be forwarded on the receipt of 14 cts. in postage stamps.

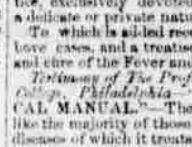
"MAN, KNOW THYSELF."

AN INVALUABLE BOOK FOR 25 CENTS.—"EVERY FAMILY SHOULD HAVE A COPY."



100,000 COPIES SOLD IN LESS THAN A YEAR. A new edition revised and improved, just issued.

DR HUNTER'S MEDICAL MANUAL AND HAND BOOK FOR THE AFFLICTED.—Containing an outline of the origin, progress, treatment and cure of every form of disease contracted by promiscuous sexual intercourse, by self-abuse or by sexual excess, with advice for their prevention, written in a familiar style, avoiding all medical technicalities, and every thing that would offend the ear of decency; with an outline of complaints incident to Females, from the result of some twenty year's successful practice, exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added receipts for the cure of the above cases, and a treatise on the causes, symptoms and cure of the Fever and Ague.

Testimony of The Professor of Obstetrics in Penn. College, Philadelphia.—DR. HUNTER'S MEDICAL MANUAL."—The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

JOS. S. LONSDALE, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of Disease of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some cases where the patient has been considered beyond medical aid. In the treatment of Seminal weaknesses, or disarrangement of the functions produced by self-abuse, or Excess of venery, I do not know his *superior* in the profession. I have been acquainted with the author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recommend him to one in whose professional skill and integrity they may safely confide themselves.

ASHBEL WOODWARD, M. D.

"This is, without exception, the most comprehensive and intelligible work published on the class of diseases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and, with too little breath to puff, and too little presumption to believe, he has offered to the world, at the merely nominal price of 25 cents, the fruit of some twenty years most successful practice."—*Herald.*

"No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their charge."—*People's Advocate.*

A Presbyterian clergyman in Ohio, writing of "Hunter's Medical Manual" says:—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution, without realizing the sin and fearful consequences upon themselves and their posterity. The prostitution of thousands who are ruining families have been ruined, if not broken down and they do not know the cause or the cure. Anything that can be done to enlighten and influence the public mind as the best, and ultimately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generation. Intemperance or the use of intoxicating drinks) though it has slain thousands upon thousands is not a greater scourge to the human race. Accept my thanks in behalf of the afflicted, and believe me, sincerely yours in the good work you are engaged in."
