

Senior Class

ROBERT WILLIAM WATERFILL, B.S. in M.E. Lawrenceburg

Tau Beta Pi; Edison-Joule Society, President (2); American Association of Mechanical Engineers, President (4); American Institute of Electrical Engineers.

If Robert had a nickname it would have to be "Silence." He believes in avoiding all unnecessary wear and tear on his vocal cords, but when he says something it is usually worth at least an A. Rumor has it that he once had a girl back home. Maybe so, but until he chooses to loosen up and tell about it, we don't know whether he has joined the Jilted Brethren or she has jointed the Jilted Sistern.

HANNAH S. WEAKLEY, B.S. in Home Ec. Louisville

Y. W. C. A. Cabinet (2); Philosophian; Strollers; Louisville Club; Horace Mann; Home Ec.-Ag. Society; Glee Club.

Quiet, loyal, capable is this little person. Her heart is as big as she is small. She has a most original way of finding out all the news on the campus. But if you want anything done, and done well, just go to Hannah.

IRMA FRANCES WENTZELL, B.S. in Chem. New Albany, Ind.

Horace Mann, Vice-President (2), President (4); Student Government Council; Vice-President of Patterson Hall (4); Louisville Club; Glee Club; Y. W. C. A.

As an ornithologist, Irma is without a peer, not lover, but peer. With marks which soar as high as Byrds, she has added glory to her sex. As a scientist, she is a firm believer in the theory advanced by Darwin. Certainly, we descended from lower animals, and so did the Byrds. Last but by no means least, she is a chemist. She has worked a formula for everything, even love, which reads: boy, girl, congeniality.
