The Proprietor, Mr. DUPONCO, being assisted by himself and Agents, treats parts of the world, to which appointments have been extended, in person. Ladies may, therefore, rely upon receiving the same treatment from the Proprietor himself, whether by the circular or personal interview, as they would receive at the hands of a brother. Dr. DUPONCO'S CELEBRATED ELIXIR ABOVE NAMED is unquestioned into this country by the inhabitants of the Western Continent, for the last fifteen years, its remedial and tonic properties, and is now sold in Europe as well as America, to meet the one almost universal demand. It is prepared in Paris, and imported direct to PARIS and London, made of the most concentrated vegetable extracts, and is warranted to be free from mercury, or any other mineral substance, and is guaranteed to be entirely vegetable. It is composed entirely of vegetable ingredients, all of which are not only harmless to the most delicate, but highly nutritive, tonic and invigorating. Through its use the appetite is strengthened, the digestive organs regulated, and the blood purified. It is particularly recommended to persons suffering from consumption and piles. It would be impossible, within the limits of an advertisement, to give a hundredth part of the testimonials in favor of this Elixir, but we refer to the value of the Life Elixir as a sure remedy for consumption in its various stages, to those who have used it, or have it in their families. It is, however, in furnishing for publication a copy of the acknowledgments and certificates in which will be found authorities of the highest character, and those well known and deservedly esteemed.

The subscribers having used in their families the Life Elixir, can recommend it as a most genuine article, being also in constant use in their establishments in supplying morbid debility of the bowels, in particular, and the system in general, with that tone so necessary to the due discharge of those functions dependent upon healthy nutrition. Which is now rapidly superseding all others, being acknowledged by all manufacturers of judgment and experience to be the

BEST LEATHER MACHINE

In the world. It uses a smaller needle to carry the same sized thread than can be used in any other machine; does not cut the leather, and the hole made by the needle is small and completely filled by the thread, resembling hand work. Its rotating shape enables the operator to handle his work with ease, and do many kinds that cannot be done on a flat surface machine. Its work is greatly admired by all manufacturers.

Call and See Them.

Always happy to exhibit and explain them to every one whether intending to purchase or not.
