CANADIAN TROOPS DEFEAT GERMANS

Capture of Four Lines of Teuton Trenches in the La Bassee District.

LOSSES WERE VERY GREAT

Ran Out of Ammunition and Grenades and Had to Give Up Part of the Conquered Works, But Evened Score.

By HERBERT TEMPLE.
International News Service Correspondent.
London, June 28.—Canadian troops have again been called upon to beat the best soldiers in the German army, and once more they have succeeded. The gallant soldiers from America were sent into action at La Bassee in a three-day battle lasting from June 15 to 18. They captured four lines of the German trenches, but part of these had to be relinquished because the Canadian ammunition had been exhausted.

Narrative From Front.
Details of the Canadians' feat at La Bassee arrived here in the following narrative from the front:
"With other British forces the Canadians were ordered to take the German trenches in a sector at La Bassee. The Canadians were led in the undertaking by the First Ontario regiment, with the third Toronto regiment acting as a support.
"After a cannonade the Canadians made a bayonet charge with great gallantry. In less than fifteen minutes they were in full possession of the first line of German trenches. There they paused only for a moment.
"They then went tearing at the second line, which they carried gallantly. In a few minutes the third and fourth lines were assaulted and carried.
"The Canadians followed at the heels of the fleeing enemy, giving him no time to rally his forces. The battalion at once began to consolidate the conquered positions, but finally the Germans made a stand and opened a counter-attack.
"In the meantime the Canadians' ammunition had run low. Their grenades had been expended in carrying the four lines of trenches. They resisted the counter-attack obstinately, but finally, under a shower of shells and grenades the gallant Canadians had to relinquish the front lines of trenches.
"Canadian losses I saw.
"In the partial retirement which followed," continues the narrative, "the Canadian losses were very heavy. During the night of June 15 the Second brigade relieved the First brigade and the Ontarians.
"On the night of June 16-17 the Germans delivered a heavy counter-attack against the lines held by the Second Canadian brigade. This evening up the score. The Canadian riflemen waited until the attack had developed strength, and then wiped the German infantry out of existence. Few Germans got back to their lines."

Vienna, June 28.—Chodorow, a town of Galicia southeast of Lemberg, at which four railroad centers, has been captured by Austrian troops, who are now proceeding down the Dniester river to assist the German troops of General von Linsingen near Halicz.
Though the Russians have gained a slight success near Halicz, forcing back to the south bank of the Dniester the German troops who had crossed, the arrival of the Austrians from Chodorow is expected to terminate the Dniester campaign in a complete victory for the Austro-German forces.

CONSULT VON TIRPITZ

German Admiral Confers With Jagow and Bethmann-Hollweg.

Removed That Naval Head Is at Odds With Chancellor and Secretary Over American Note.

By FREDERICK WERNER.
International News Service Correspondent.
Berlin, June 28.—Admiral von Tirpitz, director of Germany's submarine warfare, was called into conference by Foreign Secretary von Jagow on the reply to the American note. The conference lasted two hours and later the admiral visited Chancellor von Bethmann-Hollweg.

The fact that the admiral went direct, from the foreign office to that of the chancellor led to rumors that the naval head and Herr von Jagow were at odds over the tenor of the reply to the American protests. The admiral is said to oppose making any concessions, while the foreign secretary, it is reliably reported, advocates certain modifications in the submarine campaign which will prove satisfactory to the United States.

The chancellor is understood to share von Jagow's views at this time, but avers are being watched with interest to learn whether he will alter his position in view of an appeal from the admiral.

AUSTRO-GERMANS CONTINUE BATTLE

Hard Fighting Is Still in Progress Along the Dniester Front.

RUSS CLEAR NORTH BANK

Petrograd Officially Reports Several Successes for the Czar's Forces, But Admits a German Success in Valley of Orzye River.

By FRANCIS LAVELLE MURRAY.
International News Service Correspondent.
Petrograd, June 28.—German troops have been cleared from the north bank of the Dniester river in the Kozany district of Galicia, the Russian war office announced, and in the Martynov region the czar's troops have captured remnants of the Teutonic forces who were trapped on the north bank when General Linsingen's forces were hurled back.
Despite the victory of the Russians in the early stages of the fighting on the Dniester, however, the Austro-German forces are continuing their attempts to cross the river from the south bank and hard fighting is in progress along the front.
Several Russ Successes.
The latest official report from Grand Duke Nicholas records successes for the Russian forces at several points along the battle front extending from the Baltic provinces to Bukovina, but admits a German success in the valley of the Orzye river, northern Poland, where the Russians evacuated fortifications which the kaiser's artillery had completely destroyed.
The grand duke's report shows that the Teuton allies are on the offensive along the Poland-Galicia front, but at no point have they been successful in their efforts to smash through the Russian lines. The report of the grand duke follows:
"Thursday night and Friday there was an artillery duel in the Shavli region. There were outpost encounters on the front of Liatakow and Populnaya, as well as on the right bank of the Niemen.
"West of the middle Niemen a night advance by the Germans between the Kovno-Wirballen railway and Amalabog was repulsed by the Russian artillery fire.
"On the Narow front the fighting was confined to sharp artillery firing and local outpost encounters. The firing was most violent during the night of the 21st in the district of the Omulew and Orzye valley. After artillery preparations the Germans took the offensive along the rivers, but were soon stopped.
"In this section we took in the Omulew section 80 prisoners, but in the Orzye valley we were forced to give way. One of our works was completely destroyed by the Germans' annihilating fire and we were forced to evacuate it.
"On the Vistula, from south of the Plica, the Germans yesterday thrice attempted to make headway with weak effectiveness west of Coeloff, but were repulsed with great losses.
"On the Tanev front, in the direction of Kolkiew and Lemberg there was no important change. The Austro-Germans attempted to attack us along the railway leading from Lemberg to Kamenka and Brzezany.
"On the Dniester river during the night of the 23d we drove back beyond the river the remainder of the Germans who crossed the previous day in the Kozany district.
"Fighting Continues.
"In the region of Martynoff-Stryl, on the evening of the 23d we captured the remnants of the Germans who had crossed the Dniester, altogether 15 officers and about 700 men.
"Notwithstanding the disastrous results of these crossings the Germans and Austrians attempted the very same night to throw their forces across the Dniester by bridges constructed south of Bukowezky, they having previously only crossed near the village of Roudzdyany. The fighting continues."

BIG GERMAN GUNS FOR WARSAW DASH

London Reports Several Trainloads of Heavy Cannon on Way East.

TO BE USED AGAINST RUSS

Teutons Lost 130,000 Prisoners and 300 Machine Guns in Recent Operations in Galicia, Is Report From Petrograd.

London, June 28.—A Central News dispatch from Amsterdam says several trainloads of heavy guns have left Essen for the German front on the Baura river in Poland, where it is believed they will be used in an advance against Warsaw.
Always Driven Back.
Since the fall of Lemberg military experts here have expressed the belief that the Austro-German allies would not be content with forcing the Russians beyond the borders of Galicia, but would attempt to continue their terrific drive and capture Warsaw, the capital of Poland. On previous occasions the Germans have hammered their way to a point almost within artillery range of Warsaw, but have been driven back by the forces under the direction of Grand Duke Nicholas.
The success of the Teutonic allies in the Galician campaign was due largely to a preponderance of artillery and the expenditure of an overwhelming number of shells. If additional heavy guns have been sent from Essen, where the famous Krupp works are situated, it would seem to indicate an intention to continue in Poland operations of a similar nature.
Capture 130,000 of Foe.
The Petrograd correspondent of the Daily Mail, commenting on the fact that the Russian army has remained intact during seven weeks' retreat in Galicia, says this army has inflicted tremendous losses on the enemy, having captured in the course of these operations 130,000 men, nearly 300 machine guns and 60 cannon. He continues:
"That the Russian flags are firm is proved by their successes on the Dniester and Tanev rivers. The military organ, the Russky Invalid, suggests that the only thing that now matters is to keep the enemy occupied while Russia's allies in the West are getting up strength. It is generally conceded that the Russians will evacuate more territory, if it is necessary, in order to find favorable positions on which to make a stand."

HUERTA ARRESTED

AT THE BORDER—REVOLUTION FRUSTRATED—UNCLE SAM ACTED WITH SPEED

To Prevent Fomenting of Another Revolution Movement on the American Soil.

Western Newspaper Union News Service.
El Paso, Texas.—Charges of having conspired to incite a revolution against a friendly country were filed against General Victoriano Huerta, former President of Mexico, who was placed under arrest at Newman, N. M., by Federal officers. Similar charges were filed against General Pascual Orozco, who was arrested at the same time. Huerta was released on \$15,000 bond. Orozco's bail was fixed at \$7,500, and he also was released. Instead of being given an enthusiastic welcome by his supporters, many of whom had gathered at the border, General Huerta reached El Paso in custody of Federal officers and under guard of 25 United States troops.

The former Mexican Executive and General Orozco were taken to the customs house here and later removed to Ft. Bliss, where they were held until their bonds had been provided. General Huerta in answer to a question denied he had intended to re-enter Mexico at this time. General Huerta had planned to leave the train at Newman and motor 20 miles to El Paso, accompanied by Major Luis Fuentes, his son-in-law, and General Orozco, who had been one of his most active commanders in the fighting against the Constitutionalists. That portion of his plan was carried out, but his party was augmented by the additions of the Federal officials and a detachment of the Fifteenth United States Cavalry. The coming of General Huerta to El Paso had been predicted here, but news of his detention came as a surprise to the public.

McChesney Speaks To Twenty-five Hundred.

Last Monday witnessed the biggest crowd that has assembled in West Liberty to hear a political speech in a decade. Hon. H. V. McChesney was billed to speak here on that day and early in the day it became evident that the court house would not hold a sixth of the people, and arrangements were made to have the speaking at Highland Park, one half mile east of town. Notwithstanding the dust and the distance, the crowd cheerfully walked out to that beautiful grove, and at 1:45 Mr. McChesney began his speech to more than twenty-five hundred people, several hundred of whom were ladies.

The crowd stayed and listened attentively for about two hours to one of the most effective speeches that has been delivered in the campaign. Mr. McChesney did not attempt any oratorical flights. His speech was one that went direct to the hearts of the people. It was, as he said, the presentation of the human side of the liquor question, and in a masterly manner he stated the principles upon which his campaign was pitched. He compared the human side, the home-love side of the question with that of the financial side, and also proved that the revenue producing power of the liquor traffic was more than offset by the cost of the criminal prosecutions that it caused. He held up the balance with the dollar in one end and the destroyed boy in the other for the people to choose between.

Strong men wept during the speech and the applause was frequent and hearty. At the conclusion of the speech the ladies in the audience arose and sang "Kentucky's Going Dry."

McChesney's speech strengthened him immeasurably in this county, scores of men who had heretofore been for other candidates came to him after the meeting and told him that they were for him now, and several prominent republicans announced that they would support him in November. The crowd's evident sympathy with the views of Mr. McChesney, and the indisputable evidence that the sentiment of the county is irresistibly turned to his support must have greatly encouraged the champion of the State-wide cause.

To All Democrats.

I want, and will very much appreciate, your support in my race for Circuit Judge of the 32nd Judicial District, of Kentucky. I have only had a few months by appointment in this office and it being customary to indorse for one term, this is my last chance to be elected Judge.

I will be confined to the work of enforcing the law and can not visit you in person. If the usual electioneering stories are started it will be for the purpose of misleading you. Please disregard them and give me your support that I may for one term carry out the reforms that I have begun.

Yours truly,
M. M. REDWINE.
