You haven't filed an income tax report in how long?

Dishonesty never pays

Governments lose billions of tax dollars every year from the income of individuals and businesses, as well as from unpaid taxes. Tax evasion can take many different forms: Tax shelters, undeclared work, excessive tax planning, omitting to submit an income tax return or to declare revenue earned from investments on the stock exchange, etc.

Consequences for tax evaders
Tax evasion has major consequences for those who are caught: It can result in a criminal conviction. If they are found guilty, they could receive a heavy fine, go to prison or end up with a criminal record with all the negative repercussions this situation can result in.

Consequences for the general public
This embezzlement of public funds also has consequences for society in general. Governments invest considerable sums of money in attempting to catch poor payers and tax evaders. This money, added to that lost every year due to tax evasion, amounts to a huge loss of revenue for governments. These losses directly affect their level of debt and influence their capacity to provide services and to finance programs in response to the needs of our society; social programs are often the first to be cut. Moreover, law-abiding individuals see their tax burden increased unfairly.

Tax evaders, as much as society in general, are affected by tax evasion. So pay what you owe now before having to pay too much at a later date.

Tax time is approaching fast so be sure to call 270.765.3862 to participate in The News-Enterprise 2012 Tax Directory. You're guaranteed to see a return on this investment!
