Sharon Heights Hospital Gets Grant of \$18,300.00 From Ford Foundation

FORD FOUNDATION GIVES OVER HALF BILLION DOLLARS TO HOSPITALS AND EDUCATIONAL INSTITUTIONS WHICH WILL BE DISTRIBUTED OVER THE ENTIRE NATION.

H. ROWAN GAITHER, JR.
President
The Ford Foundation

HENRY FORD II
Chairman, Board of Trustees
The Ford Foundation

The Sharon Heights Hospital at Jenkins will receive \$18,300 grant under a half-billion dollar gift program announced this week by the Ford Foundation of New York City.

Other institutions receiving grants in nearby Kentucky counties include the following:

Homeplace Clinic and Hospital, Ary, Perry County	\$ 10,000
Berea College Hospital, Berea	19,800
Mount Mary Hospital, Hazard	59,900
Hyden Hospital, Hyden	10,000
Notre Dame Hospital, Lynch	19,900
Methodist Hospital, Pikeville	69,500
Asbury College, Wilmore	147,800
Berea College, Berea	296,600
Union College, Barbourville	70,700
Georgetown College, Georgetown	158,300
Univ. of Louisville	559,900

In regard to the gift received by the Sharon Heights Hospital a spokesman for the hospital said today, "We are indeed grateful and appreciate very much the wonderful gift from the Ford Foundation. The money is to be used for the pressing need for expansion and modernization of our facilities toward serving our patients."

The terms of the grants will place full responsibility on the governing authorities of each hospital to spend the funds in accordance with local needs and problems. Use of the funds will be permitted for any program of improvement or extension of hospital service, but not for operating expenses for services currently being performed by the hospitals. A particular purpose of the grants would be to assist hospitals desiring to do so to achieve full accreditation with the Joint Commission on Accreditation of Hospitals. Programs may be in the form of:

- Improvement of or addition to facilities or services;
 - Additions to or training of personnel;
 - Conducting research.
- Within these broad limits, the recipient hospital may use its grant in any area of hospital service, including, for example, disaster planning, mental illness, prematurity, rehabilitation, handicapped children, preventive or diagnostic services, out-patient care, or any other area which in the opinion of the

hospital's governing board would best serve its community.

Hospital governing boards will be required to submit evidence of tax exemption before receiving a grant, to report preliminary plans for use of funds within three months of acceptance, and to report at the end of two years on actual or projected use of the funds.

The amount of each grant has been computed on the basis of patient days of service provided by the hospital and the number of births in the hospital. Patient days reflect the extent to which hospital is used. Days of care given to newborn infants are not shown in the patient-day tabulation; therefore, the number of births is added to patient days as a measure of an important hospital service.

Computation of grants is based on reports from each hospital to the American Hospital Association.

Governor Wetherby filled vacancies on both the Western and Morehead State Colleges Board of Regents for terms ending next April 1.
