

This is Gatlinburg in Winter

Which proves Gatlinburg is a True Year Round Resort Area

The picturesque Alpine-like village of Gatlinburg, Tennessee exists for only one reason: to accommodate visitors to the Great Smoky Mountains and make their stay as pleasurable as possible.

Nestled at the northern gate to the Great Smoky Mountain National Park, Gatlinburg is truly a year 'round vacation haven. Camping, hiking, horseback riding, fishing and golf are particularly popular throughout early spring to late fall. Skiers get their say during winter. And, year 'round there is an abundance of attractions and historical sights for young and old alike to enjoy ...including our number one attraction...the black bear.
