

Dear Sister

With Luc's stockings & I send some linen for bands of chemised. which Phoebe wishes you to stitch for her if you have the time, you will find they are cut rather wide but she expects to put a small scallop at the edge, two or three cords will be enough I send the lengths of band and sleeve bands without allowing anything for drawing up in stitching.

You will hear from us through Mr Brodick who will see Richard but does not expect to have time this trip to see you. We hear that John expects to come to Henry's this winter, I suppose he intends selling his place.

With love to all in haste
Your affectionate Sister
L B
