

VACUUM CLEANERS

You have been waiting —

• for a non-electric cleaner that *cleans*. One with a strong suction and a revolving bristle brush that picks up all of the lint threads and combings, as well as the grit and dust.

The **Vaculette**
Suction
Sweeper

is what you have been waiting for, and a demonstration will convince you. Weighs only 7 pounds and is surprisingly low in price.

Be Sure to See It.
