(606) 278-8437

**If you start out small . . .  
let us show you  
how to grow . . .**

Your first place may be a bit small . . . . .an old apartment perhaps that needs lots of fixing up. We'll show you how to build bookcases, shuttered windows, add a counter . . . . .all things you can do yourself. When you buy your first home, we'll help with the kitchen, bathroom and all the kind of decorating ideas you can dream up. Building materials and appliances . . . . .all at builder's prices. If you're willing, we will provide what you need, at great savings, with a little know-how thrown in.
