Dear Fred Rankin..

Your little visits meant
a great deal to me at St. Joseph's,
and as I find myself thinking of
what you mean to Will and to me
I realize that I can never put
any of these thoughts into words
because the admiration for you,
and gratitude I feel towards you,
always seems too deep to tell
about.. But for you Will
would still be hobbling around
in pain. He is nursing
that sciatic nerve!
